

Table with 13 columns and 14 rows of numerical data. Columns are numbered 1 to 13, and rows contain numerical values.

I DESTINA

Main data table for 'I DESTINA' containing 100 rows and 28 columns (numbered 24 to 240). Each row represents a data point with values across these columns.

I DESTINA

Main data table for 'I DESTINA' containing 100 rows and 28 columns (numbered 24 to 240). Each row represents a data point with values across these columns.

I DESTINA

Main data table for 'I DESTINA' containing 100 rows and 28 columns (numbered 24 to 240). Each row represents a data point with values across these columns.

I DESTINA

Main data table for 'I DESTINA' containing 100 rows and 28 columns (numbered 24 to 240). Each row represents a data point with values across these columns.
